

## Expansion-oriented physical layout

### (a) degree-bounded materialization

in-degree rank

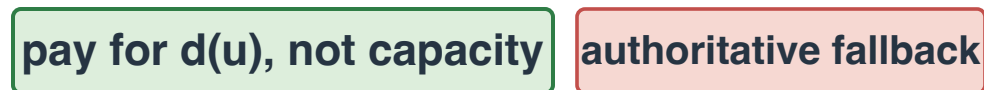

### (b) live-prefix records

fixed capacity 5: B[42], d(42)=3, live IDs {23,57,81}

serialized remote region

variable d(u): 3 live entries

### (c) configured scoring code

offline configuration

metric + dimension guard

sq8

low-d L2

RaBitQ-2

960d L2

evaluated TTI inner-product boundary

### (d) canonical B[u] byte layout
